Station Display at Community Day

Our new-look display material made its debut at Community Day on 16th June. With our archives and publicity material laid out on four large, refurbished roller banners, members of the public can now familiarise themselves with the project to better effect.

We received many complimentary comments, not only about the display, but the project as a whole, and hopefully have encouraged some who have still to visit the station to go there whilst the summer flowers are in bloom.

It always gives us great satisfaction when a school or group such as John of Rolleston Primary School ask us if they can visit the station.

Visit by pupils of John of Rolleston Primary School

Monday 18th June witnessed the Year 2 classes from our village school arrive in time for an imaginary trip on the Tutbury Jinny and prepare for a project that they are about to tackle.

The pupils learnt how a small village railway station functioned, the various members of staff who would work on the railway line and the type of trains that passed through Rolleston.
